## EDUCATION

### De Anza College

Computer Science

California, USA

January 2023 - December 2023

### Washington State University - Pullman

Computer Science B.S

GPA: 3.8

Washington, USA

January 2024 - June 2027

## EXPERIENCE

### Sneaker Reseller (Selfemployed)

TP.HCM, VietNam | 2016 - 2019

- Bought limited-edition sneakers at retail and resold at profit through platforms like [StockX, GOAT, Facebook Marketplace, etc.]
- Tracked market trends and release calendars to make purchasing decisions
- Managed listings, negotiated with buyers, and ensured smooth transactions and delivery
- Developed attention to detail, negotiation skills, and customer communication

## SKILLS

Programming Languages: C, C++, Java, C#

Libraries/Frameworks: .NET, Avalonia

Tools / Platforms: VS Code, Microsoft 365 (Word, Excel, Outlook), Docker, Rider, Git, GitHub

## PROJECTS / OPEN-SOURCE

### Crimson Canvas | [Link](#)

HTML, CSS, JavaScript

- Led development of assignment workflows by implementing add/edit assignment grade features and wiring them into per-class grade calculations and the dashboard view.
- Collaborated with teammates who built authentication and due-date views to integrate UI components, align on data structures, and ensure a consistent user experience across pages.
- Designed the front-end in a way that could be extended with more innovative features, such as real-time grade updates across devices and social sharing of progress summaries for students.

### HalloweenContest | [Link](#)

C#, MVVM, TDD, StyleCop

- Built an Online Halloween Contest System in C# with a desktop GUI, allowing users to register accounts, log in, manage Halloween creatures, and participate in themed contests.
- Developed organizer tools for creating/opening contests, defining scoring criteria, approving creatures, and finalizing results using averagescore winner selection.
- Followed MVVMstyle architecture and TDD for core logic, with clean identifiers, XML documentation, and StyleCop rules.

## HONORS & AWARDS

- Dean's List, 2023, 2024, 2025
- 3rd place in Chinese Chess, 2017
- International Transfer Award at WSU, 2024 - present
- International Merit Award at WSU, 2025 - present
